

Fitting Spray

Introduction

Technical sprays are used in nearly all sectors of modern industry. These sprays are used for care and protection of surfaces, for cleaning, degreasing, dissolving and separating and are essential in daily business.

We do guarantee the continuously high quality of our products.

However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.

Fitting Spray is a maintenance and care agent with good adhering properties for all movable parts at windows, doors, gates, etc. The transparent product is free of silicones, resins, acids and solvents. Due to its special creeping and water-repellent properties, Fitting Spray reduces friction and wear and suppresses squeaky noises. Fitting Spray is resistant to weathering, protects against corrosion and loosens dirt.

Applications

Lubrication, care and maintenance of:

- Fittings at windows, doors, gates and garages
- Tilt-and-turn and shear fittings
- Hinges and locking systems

Technical data

Colour	colourless
Odour	almost odourless
Temperature resistance	-25 to +120 °C
Shelf life (minimum)	24 months
Special features	Resin- and acid-free

Processing

Clean and degrease surfaces. To ensure a perfect spray function, the product should have room temperature.

Shake can before use. Spray on at about 15 cm from surface.

Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation.
