

# Bio-Cut

## Introduction

Technical sprays are used in nearly all sectors of modern industry. These sprays are used for care and protection of surfaces, for cleaning, degreasing, dissolving and separating and are essential in daily business.

We do guarantee the continuously high quality of our products.

However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.

Due to its particularly high lubricating effect, WEICON Bio-Cut permits higher speeds and longer service lives, resulting in a higher cutting performance of the tools.

WEICON Bio-Cut is mineral oil free - water pollutant class 1, self-classification according to VwVwS (Verwaltungsvorschrift wassergefährdende Stoffe = German Administrative Regulation Regarding Water Pollutants) and completely biodegradable.

## Applications

- Drilling and turning
- Milling and reaming
- Sawing and punching
- Thread cutting of all types of steel, castings, stainless steel, copper, brass, aluminium, and their alloys

## Technical data

Colour	colourless
Odour	almost odourless
Temperature resistance	to +200 °C
Shelf life (minimum)	12 months
Special features	Completely biodegradable

## Processing

Shake can thoroughly before use. Richly spray on at 20 to 25 cm from surface.

## Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

## Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation.
