

# Metal-Fluid

## Introduction

Technical sprays are used in nearly all sectors of modern industry. These sprays are used for care and protection of surfaces, for cleaning, degreasing, dissolving and separating and are essential in daily business.

A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.

New high-performance product for care, protection and cleaning of mat and glossy metal surfaces, such as stainless steel, aluminium, chrome and bright metals etc., indoors. Also available as a 500 ml pump dispenser.

Metal-Fluid also cares, protects and cleans ceramic, wood, glass and plastics and is NSF-registered. Etched and printed inscriptions as well as plastic surfaces and rubber valves, e.g. in the kitchen area, will not be attacked.

## Technical data

Colour	milky
Odour	almost odourless
Temperature resistance	--- °C
Shelf life (minimum)	24 months
Special features	antistatic effect

## Processing

To be used at room temperature. Shake can thoroughly before use. Spray a sufficient quantity of WEICON Metal Fluid onto the surface, distribute the material homogeneously and polish with a dry cloth. Badly soiled surfaces, e.g. in kitchens, must be cleaned with appropriate cleaning agents prior to application.

## Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

## Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation.

We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended.
