

# Smoke Detector Test Spray

## Introduction

The use of smoke detectors in both private households and industry is getting more and more important.

In many countries all over the world the installation of smoke detectors is already a legal requirement, e.g. in Australia, Canada, Germany, Great Britain, Norway, Sweden or the USA.

With WEICON Smoke Detector Test Spray, optical and photoelectrical smoke detectors can be tested in a quick and safe way, without the need of additional testing instruments. The functioning of the smoke detector has to be tested on a regular basis. We recommend two inspections per year.

WEICON Smoke Detector Test Spray is ideal for secure testing of optical or photoelectrical smoke detectors.

WEICON Smoke Detector Test Spray is NOT smoke in a can - it is an aerosol/atomised spray.

## Technical data

Colour	colourless
Odour	solvents (slightly)
Shelf life (minimum)	24 months
Special features	silicone-free, evaporates without residues

## Processing

Shake can before use and spray WEICON Smoke Detector Test Spray for about 5 seconds and with a distance of approx. 30 cm towards the smoke detector.

If there is no reaction, testing should be repeated. If there is still no reaction after several tests, the smoke detector is defective and must be replaced.

## Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

## Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since

individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation.

We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.
